

Paper Prompt #1

What did Socrates see as his role in Athenian society? And why did this get him into trouble? (hint: talk about Socrates' investigations into the prophecy regarding his wisdom from the Oracle at Delphi, and also the conclusions he drew from these investigations)

We see an example of Socrates' search for wisdom when he asks Euthyphro, a self-proclaimed expert on piety, what piety is. Euthyphro gives three attempts at definition. **State and explain each, as well as Socrates' responses to each, paying particular attention to the last one.**
